Glossary

AAMVA (The American Association of Motor Vehicle Administrators) : The American Association of Motor Vehicle Administrators is a tax-exempt, nonprofit organization striving to develop model programs in motor vehicle administration, police traffic services and highway safety. The association serves as an information clearinghouse for these same disciplines, and acts as the international spokesman for these interests. (<http://www.aamva.org/about/>)

ACD : AAMVA Code Dictionary

AFIS : Automated Fingerprint Identification System

BAF (Board Action Form) : Associated with corrections.

CAP (Common Alerting Protocol) : The Common Alerting Protocol (CAP) is an open, non-proprietary standard data interchange format that can be used to collect all types of hazard warnings and reports locally, regionally and nationally, for input into a wide range of information-management and warning dissemination systems. (<http://www.incident.com/cap/what-why-how.html>)

NCIC (National Crime Information Center) : A part of the Federal Bureau of Investigation's (FBI) Criminal Justice

Information Systems (CJIS). "NCIC is a computerized index of criminal justice information (i.e.- criminal record history information, fugitives, stolen properties, missing persons). It is available to Federal, state, and local law enforcement and other criminal justice agencies and is operational 24 hours a day, 365 days a year. PURPOSE: The purpose for maintaining the NCIC system is to provide a computerized database for ready access by a criminal justice agency making an inquiry and for prompt disclosure of information in the system from other criminal justice agencies about crimes and criminals. This information assists authorized agencies in criminal justice and related law enforcement objectives, such as apprehending fugitives, locating missing persons, locating and returning stolen property, as well as in the protection of the law enforcement officers encountering the individuals described in the system."

<http://www.fas.org/irp/agency/doj/fbi/is/ncic.htm>

NIBRS (National Incident-Based Reporting System) : "A study conducted in the 1980s, with the objective of revising UCR to meet law enforcement needs into the 21st century, resulted in the creation of the National Incident-Based Reporting System (NIBRS). The goals of NIBRS are to enhance the quantity, quality, and timeliness of crime data collection by law enforcement and to improve the methodology used for compiling, analyzing, auditing, and publishing the collected crime data. A major advantage of NIBRS, beyond the increase in data collected, is the capability to break down and combine crime offense data into specific information." <http://www.fbi.gov/hq/cjisd/ucr.htm>

NLETS (National Law Enforcement Telecommunication System) : The NLETS is made up of representatives of law enforcement agencies from each of the 50 states, the District of Columbia, Puerto Rico, many Federal law enforcement agencies, and the National Insurance Crime Bureau. There is also a connection to the Canadian Police Information Center files. The Bureau uses NLETS to access information on drivers' histories, vehicle information, etc. that is used in conjunction with the NCIC data to perform a thorough background check. (www.bop.gov/progstat/1280_011.pdf)

ORI (Originating Agency Identifier) : A nine character identifier assigned by the Federal Bureau of Investigations (FBI), Criminal Justice Information Services (CJIS) division. An ORI is assigned only to government criminal justice agencies or those who meet certain additional criteria.

RDF : Resource Description Framework

UCR (Uniform Crime Reports) : A part of the Federal Bureau of Investigation's (FBI) Criminal Justice Information Systems (CJIS). "In the 1920s, the Committee on Uniform Crime Records of the International Association of Chiefs of Police developed and initiated a voluntary national crime data collection effort. During the more than 70 years since its inception, the Uniform Crime Reporting (UCR) Program has served as a means to measure crime in the United States. Expanding in scope, importance, and size over the years, the program now encompasses over 17,000 local, state, and federal law enforcement agencies

nationwide which contribute crime statistics."
