Current status of ISO 639-1 tables

The following three tables are:

1. The finalized items in ISO 639-1 in alphabetical order by language identifier, i.e. the current version of table 3 in the DIS document.
2. The items that are still in “Annex C” in alphabetical order by the English name, i.e. the current version of table C.1 in the DIS document. **Note:** This annex will not be included in the next version of the document.
3. All changes from ISO 639:1988 to the current version of 639-1, in alphabetical order by the (current) language identifiers. We may decide to include this information in a new annex to 639-1.
